

# MCA of Chicago Emerging Leaders Initiative

## Purpose

Managed by The Emerging Leaders Steering Committee, this initiative will foster long-lasting networks between young industry leaders and suppliers (45 years old or younger), identify problems and create solutions for issues relevant to a younger generation, and assist in the development of the industry's young talent. Over time, this initiative will strengthen the collaboration between current and future industry professionals and provide a forum to develop the young professionals of today into the effective leaders of tomorrow.

## Things to Remember

The Emerging Leaders Initiative is open to all MCA Members 45 and under!

The Emerging Leaders Initiative is less than a year old!

We need your help to diversify!

A diverse group of participants will help us discover diverse ideas.

Please share your perspective on what we need to do to keep your interest year after year.

If you have friends in the industry who meet the age requirement, please have them sign up for the contact list.

## Commitment

— None other than to be 45 years old or younger.

## Goals

- Help you become more familiar with MCA of Chicago offerings.
- Provide you with engagement opportunities in a relaxed environment with peers of similar age.
- Introduce you to industry related activities that will foster personal and professional development.
