

# MCA of Chicago Membership Committee

## Purpose

Assess and develop products and services the association provides to the members, as well as oversee member retention and new member recruitment.

## Things to Remember

We need  
your help!

Help us develop products  
and services relevant to  
our members.

Who should  
participate?

If you have interest in serving the  
MCA and helping grow our  
membership, we would like  
your participation.

Membership is  
the backbone of  
any organization.

We need committed committee  
members to not only grow the  
membership but to also retain  
our current members.

## Commitment

- Attend quarterly meetings in person or via conference call.
- Interview potential new member applicants as needed.

## Goals

- Suggest new member candidates.
- Review the MCA dues structure and policies.
- Consider new member benefits and services.

## Contact
