Please let us know if you require accommodations under the American with Disabilities Act. MCA Chicago occasionally videotapes, records or photographs at educational offerings for the purpose of responsibly promoting the association and/or attendance at future programs. By attending this class you agree to allow us to use your name and likeness for such purposes.

When we can develop a group of individuals to perform like a team, great things can happen. In A Foreman's Field Guide to Developing Your Workforce, Nic will walk your foremen and supervisors through how to develop their team for long-term success. As natural mentors on the jobsite, it is up to the foremen and supervisors to develop their crew to be the next leaders of the industry. In this program, your supervisor/foreman will learn:

- The 4 Core Competencies lacking in most of the workforce entering the industry today
- How to develop those competencies within your team while on the job
- How to develop each team member so everyone communicates on a higher level
- The tips, tricks, tactics and techniques a foreman and or supervisor must master to effectively lead in today's market
